Charter Renewal Under AB 1505

- Requires charter authorizers to use the state accountability system as the basis for charter school renewal.
 - Authorizes charter renewals of 5-7 years for high performing charter schools.
 - Authorizes charter renewals for 5 years for middle performing charter schools.
 - Specifies that charter authorizers shall not renew low performing charter schools.
 - Requires charter authorizers to consider alternative data, approved by the State Board, for middle and low performing charters, during a transition period. If the authorizer makes specific written findings, then a low performing charter may be renewed for 2 years using alternative data.
- Allows charter authorizers to close a charter school for fiscal and governance concerns or if the charter school is not serving all student populations.
- Eliminates the requirement that academics be the highest priority during renewal and revocation.

Charter Renewal Under AB 1505

Other considerations for a Charter Renewal Under AB 1505 are:

- Charter School Teacher Credentials
 - Charter school teachers must have a state level background check and the required credential for their assignment, with a transition period.
- Charter School Appeals
 - A Charter school is authorized a full appeal to the county board of education, but the appeal process to the State Board is limited. The Charter needs to show the district or county abused its discretion.
