To Whom It May Concern:

I have heard that part of the agenda tonight is talk of extending the school year. This is absurd that we again as parents have to suffer and cancel planned vacations, etc. because SCUSD is incompetent. My children will not attend a day past the current end date. Period. Thank you, Jana Lee

Do Not Extend School Year

Please do not extend the school year.

After 2 years of a pandemic, these children do not deserve more changes to their schedule and expectations.

Yes, it will impact family's vacations. After two years of missing vacations, vacations matters.

It goes beyond vacation.

Hello

As a parent of a 7th grader I am in favor of extending the school work days on Thursdays by one hour. However, my daughter will not be attending school after 6/16 due to travel.

The SCTA needs to say yes to extending the school schedule to make up for their strike and avoid these fines. If not, the fines need to be paid by the SCTA. Perhaps all that money they negotiated for can be used to offset the fines incurred thanks to their strike and they can have whatever's left.

Here's a raise plan I would support, the newest and lowest paid teachers get the lion's share of the raise money while those closest to retirement can content themselves with a Defined Benefit Retirement plan and 100% of their pension.

Hello,

I support the idea to extend days of school for the school year to reduce fines and ensure kids that missed learning opportunities do not fall behind, Liliana Hernandez

**Subject:** Behavior supports in the district and new teacher training

Good morning.

The decision to eliminate or "cut" 24 highly qualified support providers in the area of behavior supports and inclusive practices with over 100 years of experience in these areas is highly egregious and short sighted at best.

BTW many of the people above will NOT be filling those vacancies so your plan will backfire and do you know who will

from all of the EXPERTS above.

Also BTW – BCBA’s are meant to be used in a clinical setting or 1:1 support not in a classroom. The above BIS, FIS and IPC team members all have SPED teaching credentials and have extensive years of experience in the classroom which is why teachers better respond and relate to us when we enter their classrooms to support them with behaviors. It takes years
