Graduation Task Force Update

June 7, 2018

Introduction

The Sacramento City Unified School District recognizes that high school graduation is a pivotal milestone in the lives of its students and works diligently to ensure all students successfully complete the required course work and courses of study to graduate from the school district with the requisite skills for college and career readiness. The district's new Equity, Access, and Social Justice Guiding Principle underscores the importance of high school graduation. Etc aTd [(a)f its6.1()]0.19 -1D

Graduation Task Force Update

June 7, 2018

- x High school graduates are more likely to be employed, make higher taxable income, and aid in job generation.
- x High school graduates earn a national average of \$8,000 more annually compared to high school dropouts.
- x High school graduates are less likely to engage in criminal behavior and require social services.
- x High school graduates have better health and longer life expectancy.
- x High school graduates are more likely to vote. During the 2012 presidential election, 4 percent of people who left high school without graduating voted compared to 24 percent of youth with only a high school diploma and 37 percent with a college degree.
- x High school graduates contribute to America's national security because students that leave high school without a diploma are not qualified to serve in the military.
- x The nation's economy depends on skilled labor. Business leaders report difficulty in finding enough qualified employees with the skills, training and education to meet their companies' needs.

The important takeaway is that high school graduation matters in multiple ways. High school graduates have a much higher chance of achieving their personal dreams than high school dropouts. The recommendations of the task force are grounded in this research and understanding and are driven by the district's Equity, Access, and Social Justice guiding principle which calls for all students to have an equal opportunity to graduate with the greatest number of postsecondary choices from the widest array of options.
