Name:	Christina Terry
Comment:	I am the aunt of a 4th and 8th grader in the district and I am very concerned about the districts current state of reopening and future plans for the 2021-2022 academic year. I would like to request the district add re-opening plans and prep to every board meeting moving forward and address this this matter with urgency. Please provide the public with detailed plans regarding Fall plans and what is currently being considered. Thank you.
