BOARD OF EDUCATION

Agenda Item#\_\_

# Facilities Support Services

Facilities Update Summer 2013

September 19, 2013

## I. OVERVIEW / HISTORY

This summer's activities were centered on modernization projects at 12 sites throughout the district. The work included upgrading of classrooms, improved technology, student safety and security systems, repairing roofs, restrooms, floors, plumbing, playgrounds and parking lots. These projects were primarily funded through the district's Measure Q bond funds. A total of roughly 534 classrooms and 49 ancillary facilities were touched at some point during the summer. This included cleaning, moving, supplying, re-locating and, in some cases, rebuilding classrooms. In addition, maintenance department staff was diligently working to address issues that are typically held off until after schools are empty. During the summer they completed over 2100 work orders.

We were also able to allocate Quick Strike money to every site thus providing district-wide improvements chosen by each site. Roughly \$20,000 was allocated for each school funded out of Measure Q.

Project Green activities were in full swing over the summer with energy efficient improvements installed at several locations. Other projects included an outdoor classroom at John Sloat Elementary.

## II. DRIVING GOVERNANCE

- BP 7000 Facilities
- BP 3514 Business and Noninstructional Operations
- BP 3111 Deferred Maintenance Funds

## III. BUDGET

Measures Q and R, COPS Grant, General Fund, Deferred Maintenance, Measure I,
